Specialist IC's, Sensors,
Opto & Wireless

SEE YOUR SOPHISTICATED DESIGN DEVELOPMENTS IN A NEW, FASCINATING LIGHT.

Whether spot or ambient, indoor or outdoor, stationary or mobile – you can set innovative 18 mm² standards in the general lighting sector with Sharp's four high-performance square LED Lighting Modules: with the utmost in efficiency and optimum light dispersion as well as maximum service life, you profit from minimised maintenance for your applications.

Define white in new tones. The Sharp portfolio ranges from White Colour, Warm White Light and Bulb Colour White all the way to High Colour-rendering White with colour temperatures from 2,800 K to 6,500 K. We look forward to working with you – the new LED Lighting Modules from Sharp.
